ABOUT US

Born in Melbourne, EVO Sportswear is a fresh face on the high performance team sports category who are a cutting edge teamwear brand that goes beyond the norm to engineer, design and manufacture technically advanced performance athletic garments, helping humans optimise performance.

Custom uniforms is what we specialise in, among other team sports apparel, using the latest in Italian print technologies which guarantees higher DPI for sharper, cleaner and vibrant finishes. Our sublimation process is better on the environment and produces brilliant transfers onto fabrics with less migration and bleeding – and there is no peeling, flaking or fading.

In-house garment technicians and sales staff, who have formerly worked at the coalface with 2XU, dedicate their time to product development and are constantly searching for new fabric technologies to elevate athletes and teams everywhere.

For high quality printing on breathable performance fabrics, EVO's market-leading Italian sublimation technology is unsurpassed.
